

Finance Payable Tracker – Manager User Guide

Introduction

The **Accounts Payable Tracker** is used to manage vendor invoices and payables. As a **Manager**, you review and approve or reject payables that officers post. You do not create or post entries; officers do that. You focus on reviewing posted entries, approving or rejecting them, and granting or denying edit requests.

1. Signing In

1. Open the application and enter your **email**.
 2. Enter your **password**.
 3. Click **Sign in**.
 4. You'll be taken to the **Home** (Payables) dashboard.
-

2. Home (Payables Dashboard)

The Home page shows payable entries that are relevant to you.

2.1 Tabs

Tab	Description
Posted	Entries submitted by officers and waiting for your approval.
Approved	Entries you (or another manager) have approved.

Note: Managers typically do not see the Draft or Rejected tabs. Draft and Rejected are for officers.

2.2 What you can do

- **Search** by reference, vendor, or other details.
 - Filter by **Date**.
 - Use **KPI** counts to see Posted vs Approved.
 - Click an entry card to open it in Entry view and review/approve/reject.
 - **Bulk approve** multiple posted entries from the Posted tab (when available).
-

3. Entry View (Review, Approve & Reject)

Entry view is where you review details and decide whether to approve or reject.

3.1 Reviewing an entry

- **Vendor section** – Vendor ID, Name, Location, Email, Advanced Payment, Currency.
- **Invoice grid** – Invoice numbers, amounts, tax, totals.
- **Rejection history** – If previously rejected, you'll see the reason and who rejected it.

3.2 Manager actions

Action	When	Description
Approve	Posted	Approves the entry. After approval, officers can share the TransRef/QR with vendors for cheque collection.
Reject	Posted	Rejects the entry. You must enter a reason. Officers can then edit and Repost .

You do not see **Save**, **Save and Post**, or **Repost**; those are for officers.

4. Edit requests (Request to edit)

If an officer requests to edit a **Posted** entry (e.g. after spotting a mistake):

1. You may be notified or see a pending edit request.
 2. Decide whether to **Grant** or **Deny** the request.
 3. If you grant, the officer can edit the entry and repost it for approval.
-

5. Vendors View

Managers can use the same vendor management features as officers.

5.1 Search and filters

- **Search** – Vendor ID, name, location, email, TIN.
- **GRA Expiry** – All, Valid, Expired.
- **WHT Expiry** – All, Valid, Expired.

5.2 Actions

- **Edit** – Edit vendor details.
 - **Field history** (clock icon) – View change history for Tin Number, GRA/WHT dates, etc.
 - **Export** – Export to CSV.
 - **PDF** – Export to PDF.
 - **Refresh Data** – Reload vendor data from BCPS.
-

6. Tax View

Same as officers. Managers can search, filter, add and edit tax codes, and export.

Action	Description
Add Tax	Create a new tax code.
Edit	Edit existing tax codes.
Export	Export CSV.
PDF	Export PDF.

7. Activity Logs

Managers have access to **Activity Logs** under Settings.

7.1 What you can do

- View audit trail of actions: Created, Edited, Posted, Rejected, Approved, Reposted, Deleted, Collected.
- **Search** by TransRef, Actor, etc.
- **Filter** by action (Created, Posted, Rejected, Approved, etc.).
- **Filter** by date range (From / To).
- **Export** to Excel or PDF.

7.2 How to open

- **Settings** → **Activity Logs**,
or use the sidebar link if visible.
-

8. Pages managers typically do not access

Page	Access
Invoices	Officers only (invoice list and sending to vendors).
Cheque collection	Officers only.

9. Settings (Manager)

You can use:

- **Keyboard shortcuts** (?) – View shortcuts.
- **Activity Logs** – View and export the audit trail.
- **Reset password** – Change your password.
- **Theme** – Switch dark/light (if enabled).
- **Log out** – Sign out.

10. Typical manager workflows

10.1 Approving a posted entry

1. Go to **Home**.
2. Open the **Posted** tab.
3. Click the entry to open Entry view.
4. Review vendor and invoice details.
5. Click **Approve**.
6. The entry moves to **Approved**.

10.2 Rejecting a posted entry

1. Go to **Home**.
2. Open the **Posted** tab.
3. Click the entry to open Entry view.
4. Review the details.
5. Click **Reject**.
6. Enter a clear **Rejection reason**.
7. Confirm. The officer will see the reason and can edit and repost.

10.3 Handling an edit request

1. When an officer requests to edit a posted entry, view the request (e.g. via notification or list).
2. Choose **Grant** or **Deny**.
3. If granted, the officer can edit and repost.

10.4 Auditing activity

1. Go to **Settings** → **Activity Logs**.
2. Filter by action, date range, or search.
3. Export to Excel or PDF if needed.

11. Tips for managers

- Rejection reasons should be clear and actionable so officers can fix issues quickly.
- Use Activity Logs to verify approvals, rejections, and other changes.
- Grant edit requests when the mistake is legitimate and does not change critical information.

12. Manager vs officer roles

Responsibility	Manager	Officer
Create new entries	No	Yes
Post for approval	No	Yes
Approve posted entries	Yes	No
Reject posted entries	Yes	No
View Activity Logs	Yes	No
Access Invoices page	No	Yes
Access Cheque collection	No	Yes
Request to edit (Posted)	No	Yes
Grant/deny edit request	Yes	No
Manage Vendors & Tax	Yes	Yes
