

Finance Payable Tracker – Officer User Guide

Introduction

The **Accounts Payable Tracker** helps you manage vendor invoices and payables. As an **Officer**, you create entries, post them for approval, send invoices to vendors, and manage vendor and tax information. Managers approve or reject what you post.

1. Signing In

1. Open the app and enter your **email**.
2. Enter your **password**.
3. Click **Sign in**.
4. The **Home** (Payables) page will load. If you must set a password, use the reset link.

2. Home (Payables Dashboard)

The Home page lists payable entries by status and shows basic counts.

2.1 Tabs

Tab	Description
Draft	Entries you are working on. Click New entry to create one.
Posted	Submitted and waiting for manager approval.
Rejected	Entries that were returned with feedback.
Approved	Entries approved by a manager.

2.2 What you can do

- **Search** by reference, vendor, or other details.
- Use **Date** and **KPI** filters.
- Click an entry card to open it in **Entry view**.
- On Draft: use **New entry** to create a new payable.

3. Entry View (Create & Edit Payables)

This is where you enter and edit invoices before posting.

3.1 Vendor section

- **Vendor ID** – Search and pick the vendor.
- **Vendor Name, Location, Email** – Shown from the selected vendor (read-only when Posted).
- **Advanced Payment, Currency**– Editable for Draft or Rejected entries.
- GRA and WHT expiry status is shown when a vendor is selected.

3.2 Invoice grid

A spreadsheet-style grid with:

- **Invoice number** – Enter the invoice number.
- **Amount, Tax, Total** – Only the amount is editable; tax, total, etc. are auto-calculated.
- **Tax Menu** – Use the three vertical dot to add tax.
- **Keyboard navigation** – Arrow keys, Tab, Enter.
- **Right-click menu** – Copy, Paste, Cut, Clear.

3.3 Actions

Action	When	Description
Save	Draft / Rejected	Saves changes. Shortcut: Ctrl+S (Windows) or Cmd+S (Mac).
Save and Post	Draft / Rejected	Saves and submits for manager approval. Shortcut: Ctrl+P / Cmd+P.
Repost	Rejected	Submits again after changes.
Request to edit	Posted	Requests manager permission to edit (if enabled in features).

After posting, managers use **Approve** or **Reject**.

4. Invoices View

A list of all invoices with filters and export options.

4.1 View modes

- **Default** – Card/thumbnail view.
- **List** – Compact list view.

4.2 Filters

- **Status** – All, Draft, Posted, Rejected, Approved.
- **Cheque** – Issued or Not issued.
- **Date range** – From and To.
- **Search** – PO, reference, vendor.

4.3 Actions

- **Export PDF** – Export the current filtered list.
 - **Select mailable** – Choose invoices for email (You can only send to vendors with email only).
 - **Send invoice emails** – Send selected invoices to vendors (option to CC yourself).
-

5. Vendors View

Manage vendor details and view history.

5.1 Search and filters

- **Search** – Vendor ID, name, location, email, TIN.
- **GRA Expiry** – All, Valid, Expired.
- **WHT Expiry** – All, Valid, Expired.

5.2 Table

Shows: Vendor ID, Name, Location, Email, Tin Number, GRA Expiry, Expiry Check, WHT Expiry, WHT Expiry Check.

5.3 Actions

Action	Description
Edit	Open edit modal and change details.
Field history (clock icon)	View change history (e.g. Tin Number, GRA/WHT dates) for that vendor. Enabled only if history exists.
Export	Export CSV.
PDF	Export PDF.
Refresh Data	Reload vendor data from BCPS.

6. Tax View

Manage tax codes and rates.

6.1 Search and filter

- **Search** – Tax type, name, status, rate.
- **Status** – All, Active, Inactive, or other statuses.

6.2 Table

Shows: Tax Type, Tax Name, Rate, Action (Add/Sub), Start Date, End Date, Status.

6.3 Actions

Action	Description
Add Tax	Create a new tax code.
Edit	Edit an existing tax code.
Export	Export CSV.
PDF	Export PDF.

7. Cheque Collection

Record cheque handovers to vendors.

7.1 Search

Search by TransRef, Cheque Payee, Cheque No.

7.2 Add collection

1. Click **Add collection**.
2. Step 1: Pick a payable, enter Bank Name, Cheque No, Amount, Cheque Payee.
3. Step 2: Enter Received By, ID No, Contact.
4. Step 3: Set Collection Date.
5. Submit to create the collection record.

7.3 Export

- **Export** – CSV.
 - **PDF** – PDF of the collection list.
-

8. TransRef QR code (for approved entries)

After an entry is **Approved**:

1. Open the entry in Entry view.
 2. Open the **TransRef QR** modal.
 3. Share the **Code** and **QR** with the vendor.
 4. The vendor scans the QR, enters the Code, and fills the collection form.
-

9. Settings (Officer)

Officers can use:

- **Keyboard shortcuts** (?) – View shortcuts.
 - **Reset password** – Change your password.
 - **Theme** – Switch dark/light if available.
 - **Log out** – Sign out.
-

10. Keyboard shortcuts

Shortcut	Action
Ctrl/Cmd + K	Open command palette.
Ctrl/Cmd + S	Save (Entry view).
Ctrl/Cmd + P	Post or Repost (Entry view).
?	Show shortcut reference.

In the grid: Arrow keys, Tab, Enter; right-click for Copy/Paste.

11. Typical workflows

11.1 Create and post a new payable

1. **Home** → **Draft** → **New entry**.
2. In **Entry view**, select vendor, add invoice lines in the grid.
3. **Save** as Draft if needed.
4. When ready, click **Save and Post** (or Ctrl/Cmd + P).
5. Entry moves to **Posted** and waits for manager approval.

11.2 Handle a rejected entry

1. **Home** → **Rejected**.
2. Open the rejected entry.
3. Review rejection reason.
4. Fix errors.
5. Click **Repost**.
6. Entry returns to **Posted** for re-approval.

11.3 Edit a posted entry (Request to edit)

1. Open the **Posted** entry in Entry view.
2. Click **Request to edit**.
3. Manager grants or denies permission.
4. If granted, you can edit and repost.

11.4 Send invoices to vendors

1. Go to **Invoices**.
 2. Filter by status (e.g. Approved).
 3. Use **Select mailable** to pick invoices.
 4. Click **Send invoice emails**.
 5. Confirm sending; optionally CC yourself.
-

12. Tips

- Use **Save** often when editing Draft or Rejected entries.
 - Check rejection reasons before **Repost**.
 - Use **Field history** in Vendors to review past changes.
 - Use Ctrl/Cmd + K for quick navigation and search.
-
